Listing of Photographers Past and Present

Updated: Today's Date: 7/23/2026

This list contains the names of many of Past and Present Navy photographers who wish to have their name recorded and displayed to preserve their service supporting Naval Photography. It also serves as record of those no longer with us. Some names are from old records and no other information is available. If you notice your name is not listed OR your information needs updating, please visit NavyPhoto.Net and select the "membership" application. You do not have to join NANP to be included in the NANP database, but this application information is used to populate the entire database. Just choose the " Include me in the Photographers Past and Present or "Update my information only" selection button at the beginning of the application. For any questions or to obtain more information on a fellow Shipmate please Contact Jerry Billings at: Jerrywbillings@gmail.com or ask on the Facebook Groups (Navy Photographers or NANP)
